"Tell brother Stanton that
to me his own feelings as
propious" (he are taking
the starch out of their sanctified
men." the dogmen."

your Knight.

My dear Friend & brother.

I receive your
kind note & circular. To the questions
in the latter I must reply in the negative.
I have written to you a number of letters.
but I feel that your time is too valuable to
to be occupied with them & finally resolve not to
forward them. Can Mr Williams find time to
get a package from Glasgow from the custom
house, & forward it to Boston. It is from the
Ladies of Glasgow, & from letters received some
time since I suppose it to be directed to me. He
will very much oblige me, if it is convenient.

With earnest desires for welfare of the
human race I am ever yours faithfully.
